

**ELECTRONIC MUSICAL PERFORMANCE INSTRUMENT
WITH GREATER AND DEEPER CREATIVE FLEXIBILITY**

ABSTRACT

5 An electronic musical performance instrument that provides
a user with a wide array of creative choices of operating
systems, sound synthesis applications, user interfaces
(including those emulating the interface of a conventional
musical instrument and electronic control interfaces),
10 supporting infrastructure components such as MIDI cards, sound
cards, storage devices thus providing the performance artist
with greater and deeper creative flexibility.
